pretty near every State will waste a complimentary vote on some useless native son. Of course most of them will have to do so with a smile. WASHINGTON, Feb. 27. (P)—A revision of immigration quotas affecting a number of European countries was transmitted to the Senate today by President Coolidge on behalf of the Secretaries of State, Commerce and Labor in response to a resolution by Senator Shipstead of Minnesota, a Farmer-Laborite.

Under the revision, the annual quota for Great Britain and Northern Ireland is reduced by 7145 annually, the new figures being 64.894, as against the estimate of 13.997 transmitted to Congress in January, 1927. The new quota, based on national origin, would become effective next July 1, unless Congress meantime suspends the quota revision provision, as it did last year. The resolution, copies of which are being sent to President Coolidge and Congress, asserts that proponents of the measure are using fallacious immigration figures and that the bill would seriously harm the farming and stock-raising industries of the Southwest.

CAPE TOWN, Feb. 27. (Exclusive)—Lady Heath, the British airwoman, when flying solo in a Moth plane in Rhodesia, suffered an attack of sunstroke. She felt herself becoming unconscious when flying over wild country and just before she fainted she located a small clearing and landed safely, but does not remember how she did it.

The aviatrix said she remembers shutting off the engine, but all was blank until she awoke in a native hut and found natives pouring sour milk down her throat. The natives trekked many miles to the assistance of Lady Heath, taking her to a farm and later to Bulawayo. The plane was not damaged.

These four—Senor Arthus, a Spaniard; Al Mayer, an Englishman; Perry Bertys, a Frenchman, and Billy Mocarney, an Inginshman, make up the Basque's well-known board of strategy. Eddie Kane, Mandell's manager, also is going to New York tomorrow, to listen to Rickard's propositions and attend to some other affairs.

The controversy just now, as boxing experts here view it, is between the National Boxing Association and the New York State Commission. The NBA. compelled Mandell to put up a \$5000 forfeit to guarantee he would go through with the McLarnin match, and the Illinois State Athletic Commission is holding the money. In the meantime, McLarnin signed to fight for Rickard in May, and the New York promoter then began negotiations to sign the champion. It happens that Mullin had signed Mandell first, for this match.

HEN Mesara. Geawge
Phoebe Godfrey and
Paolino Uzeqdun begin
their evening of thumping—at
least we hope that's what they
do—out at Wrigley Field tonight there ought to be a few
questions answered. As far as
the proprietor of this colyam is
concerned we're willing to admit
that Jack Doyle has lined up
the biggest event California has
had in many years from the
standpoint of popular interest.
For this we would remove our
hat to Bro. Doyle except for the
fact that we don't wear a hat
when doing our daily bit of
typewriting. Therefore, that ceremony will have to be postponed
until we meet him on the
boulevard somewhere between
Los Angeles and Santa Monica.

However, the mere fact that
the fight bugs are all excited
over this fight doesn't mean
that we think either of the boys
amount to much. We have listened to people rave about
George Godfrey for several
years now and we have yet to
see him in anything that looked
like a first-class performance.
We're willing to admit that he
ought to be a great fighter, but
so far he has hever been able
to keep the writer of this colyum
from whiking that he had spent
a quiet evening at the movies
where one can sleep so much
more comfortably in preference
to going to see George take his
exercise.

And as for Mr. Uzendun we

And as for Mr. Uncudum we have never laid as much as one eye on the gentleman, but there is nothing in his record to indicate that he is anything or anybody to write to your Congressman about. He appears to be inclined to the old truck-driver method of milling, which consists in standing up and swinging wildly and rather ineffectually and taking everything that comes his way until the other party gets arm weary and gives up. As far as our alight experience with Mr. Godfrey goes, this system won't get the Easque to first base or anywhere near it.

where near it.

The way we look at this contest it probably hasn't much class, but it promises to be awfully interesting for the simple reason that apparently the guy who loses is going to be forced to return to a life of homest toll and anybody knows how prize fighters hate that. This horrid thought alone ought to make both of them feel like trying to fight and from all we've read if George Godfrey feels like fighting at aff the speciators ought to be able to get glowntown for the second

Now that McCarthy has indicated that he will be critics who will charge the Cub chief was afraid to reopen the difficulty that is supposed to have led to the star's banishment from the Pirates. As a matter of fact, Cuyler's objections to batting second played only a minor part in his affair at Pittsburgh. If he did object to the move he was justified. He is too valuable as a straightaway hitter to have behind the lead-off man. That is why McCarthy is going to have him down a peg.

Domestic science must continue to teach the concrete but must not leave the abstract untaught, for the home must have spirit as well as mind and body."

Reds Insist Figures Proof of Refuses to Give Assurance on Their Morality

MOSCOW, Feb. 27. (Exclusive)
The comparative marriage-divorce statistics of Moscow for 1927 show a fraction under four divorces for every five marriages. The January figures are almost exactly four to five, and there is little doubt that equality will be reached within a year at the present rate of "progress." Other large industrial centers offer similar pictures, but there is a sharp difference in the country, where the rate varies between two and three divorces for five marriages.

TWO-MONTH MARBIAGES
The soviet educational, sociological and hygienic authorities view the situation with interest, but apparently without alarm. They say the first figures are misleading in that a considerable section of the younger population reported four, five and even six divorces in one year, which does not, however, mean an average.

This is undoubtedly true, and the authorities continued that from their theypoint, both on grounds of hygiene and self-respect—particularly as regards the girls—it is better to maintain a form of legality than not in respect to the rapid and almost casual relationships that occur now in every great city among young people enjoying economic independence.

LEGALIZED PROMISCUITY "We legalize what you overlook or try to conceal." is the statement one hears invariably. It must be re-membered that the soviet regime is avowedly doing its utmost to free its citizens from religious or eccle-siastical influence, and to that end emphasizes the definition of mar-riage as an ordinary civil contract between two equals—for the regime insists no less strongly upon sex equality—breakable at the will of either party.

GENERAL MOTORS DEALERS are also dependable used car dealers

GENERAL MOTORS franchise gives standing to an automobile merchant in any community; but it is equally true that the character and reputation of the merchant give dignity to the franchise.

Therefore General Motors endeavors to select its dealers with special care, and extends every cooperation to make their business permanent.

This policy is important to you in the purchase of a new car, but it is vital in the selection of a used car. For the way to select a dependable used

car is first to select a dependable dealer.

General Motors dealers expect to do business with every customer not once but many times. The good-will of every man or woman who drives a car out of their stores is their most important asset for the future. They are careful that every car shall represent value in proportion to its price.

Go to one of them for a used car that will give you dependable transportation at the lowest possible price; and make the purchase, if you choose, through the convenient GMAC Plan.

the United States Circuit Court of Appeals here.

Some day the inventor hopes to obtain from \$10,000,000 to \$20,000.000 for his invention, which is in general use by smelting companies. He has assigned his claims to the Carson Investment Company, represented by Attorney John H. Miller. Although the United States Supreme Court has already sustained Carson's claims and ordered an accounting by the American Smelting and Refining Company, he as yet has received no money for the invention.

Today the Appellate Court here ruled that the judgment formerly rendered in the Federal Court of New York against the American Smelting and Refining Company was final and conclusive for all time against the American company and that other companies in privity and that other companies in privity

For information regarding the Corporation, and this issue of Debentures, we refer to a letter of Mr. Geo. M. Brown, President, dated February 27, 1928 (copies of which should be obtained from the undersigned), some of the items of which he briefly summarizes as follows:

EARNINGS: The combined net earnings of Certain-teed Products Corporation and of The Beaver Board Companies and subsidiaries, eliminating certain non-recurring charges, but after underlying interest, Canadian Income Taxes, depreciation and depletion, available for interest on these Debentures and for Federal Taxes, based on audited reports of the respective companies, were as follows:

First Mortgage 5% Twenty Year Gold Bonds Due February 1, 1948

Price 961/2 and Interest, Yielding About 5.30 Per Cent

The Company agrees to pay interest without deduction for any Normal Federal Income Tax up to 2% and to reimburse the holders of these bonds, upon application within sixty days after payment, for the California personal property tax not exceeding four mills per dollar per annum.

The following information is taken from official

The Company has acquired utility properties in Oklahoma for the generation and distribution of electric power and light, the produc tion and distribution of natural gas for domestic and industrial uses, and the distribution of water. The greater part of the Company's earnings will be derived from Sand Springs, Oklahoma, and from the so-called "Interborough District," one of the leading industrial communities in the State, lying between Tulsa and Sand Springs. The industries in this territory are varied and produce in large quantities, glass and glass products, petroleum, textiles, fabricated steel, chemicals, cement, brick and tile.

These bonds are secured, in the opinion of counsel, by a direct first mortgage on the entire fixed property of the Company.

As officially reported, gross earnings from the properties as operated by the former owners for the twelve months ended October 31, 1927, were \$1,213,383 while net earnings before Federal income taxes and depreciation were \$630,724 and annual interest charges on these bonds are \$225,000. These earnings do not reflect certain relatively small adjustments which will result from a change of ownership as explained in the circular. The net earnings after such adjustments are over 2.7 times annual interest charges on these bonds.

> We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

WALL STREET **PARAGRAPHS**

(Copright, 1998, New York Evening Post, Inc.)
NEW YORK, Feb. 27.—The market's action was keenly disappointing to those who had been looking for a more extensive rally in prices.
Perhaps the most discouraging aspect of the situation is the manner in which new points of weakned develop as an offset to streng develop as an offset to strength which decelops in other directions. From the high point reached early in January the market had sustained an average 10-point loss at the low for the recent selling movement established just a week ago today. Steel duplicated its low for the movement in the course of the day's decline and in quarters where bearish sentimenholds forth the fact that the test of new Steel prices is still ahead was freely commented upon.

present day. True enough, he con-

Welcome Given to Bert Hinkler

SYDNEY, Feb. 27. (P)—Bert Hinkler, Australian flyer, arrived at his home town of Bundaberg, Queens-land, this afternoon from Long

Beach.
The whole population of Bundaberg turned out to greet the aviator in honor of his brilliant flight from England to Australia. A guard of military forces and police assisted civilians in keeping the landing

space clear.
When the Australian flyer climbed from the cockpit of his machine, the crowd carried him shoulder high to a reception car.

After Hinkler had been greeted by his family, the Queensland Premier welcomed him as one of Australia's greatest sons and handed him a check for £500 a gift from the State Department.

Though acquitting the pastor of the traffic infraction, Judge Valentine took issue with Mr. Shuler's defense that police officers had been instructed "to get him." The magistrate said it was improbable the officer identified the preacher before he arrested him. Policeman Morris testified he was standing near the corner when he saw Shuler drive through the intersection without coming to a halt. Pedestrians were crossing the street at the time, he said.

Judge Valentine announced from the bench that the case involved "just one person's word against another" and for that reason he was prompted to exonerate the pastor. After the trial Policeman Morris declared he had never seen Mr. Shuler before arresting him.

IN THE LONG BUN

The inmate of a Massachusetts poorhouse managed to make and save more than \$2000 during his sojourn in the institution. He made it by barbering his fellows and selling them tobacco from time to time. That's the way it is with some folks. Put them on a desert laland and they will turn up with a pearl industry, a gold mine or a cocoanut franchise.

CIVIC COURTESY The New York police department has a courtesy class for traffic cops and they are under orders to be polite under all circumstances. This would seem to be a hard job for a Tammany bluecoat, but they are said to be scoring rather high. The finest standing a city can have depends very much upon the reputation of its officers and servants for politeness and courtesy.

MORE ARGUMENT

A new situation has arisen over
which husbands and wives may squabhle. A scientist has declared that as
each human being vibrates or responds
more easily to some certain color, housewives should find out what is their particular color-tone and have their kitchens decorated in that scheme. If the
wife wants blue and the husband yellow
could they compromise on green?

M An American musician has been fined £100 by a British court for trying to smuggle four saxophones into England. The authorities over there say gland. The authorities over there say that henceforth they are going to wage war on "the illicit importation of American saxophones." Sometimes, to our impatient sense, justice seems to move slowly. But in the course of time it may be depended upon. After a while Britain doubtless will be moved to strike out that word "illicit."

THE HANDY MAN

President Coolidge seems to be a handy man to have about the house. He can do a lot of things. He made the remark that when he quit his job he would do some whittling. That isn't loafing. Perhaps he could whittle a full-rigged ship. In other days he held his peace and sawed a lot of wood. It is certain that he has cut much ice in the last decade. Down at Havana he was knitting ties. He has even tried canning beets and pickling plums. Always busy and always ready.

Where are these records, Mr. Keyes? They consist of letters said by Deputy MacKay to have been written by the complaining witnesses against Allen, asking that the prosecution be dropped, and upon them MacKay is said to have based his motion for a dismisal. But they are not to be found. Not even MacKay is able to produce them.

Two of the complaining witnesses MacKay is able to produce them.

Mackay is able to produce them.

Two of the complaining witnesses, Mr. and Mrs. Gilmore Goodland, say they wrote no such letters. They also deny that more than a fractional restitution was made them of the \$6000 they declared Allen obtained from them—though supposed restitution was another of the grounds for the dismissal of the complaint.

of the complaint.

Dist.-Atty. Keyes says he knows nothing about the case. In view of the past weeks of public clamor about it, it would seem to be time that he began to inform himself concerning this and other things going on in his office. He would do well to devote some time to an intensive search for these records. Until they are produced explanations are going to be difficult.

Is there more than a similarity of names that connects this case with the case of Lewis H. Allen, in which Attorney Howell Richardson also appeared, Mr. Keyes?

Allen's bail was exonerated, according to the facts of record, because Dep. Dist.-Atty. Forrest Murray appeared in court and said Allen was in Joliet. When Allen was arrested in Florida it was discovered he never had been in Joliet. The \$5000 cash bail which he had posted was received by Attorney Benjamin Elconin, who appeared for him, and divided by Elconin, according to his sworn testimony, with Richardson. When asked how much Richardson got and why, Elconin refused to testify on the ground that to do so might incriminate him. Richardson also refused to testify.

Richardson also refused to testify.

This inquiry was handled before the grand jury by MacRay. The grand jury did two significant things: it reported that because of the failure of the witness to testify, the commission of a crime could not be established, and it twice indicted Investigator Bert Ramsey, who had dug up the facts about Allen!

Ramsey was exonerated by a trial jury on one charge and the other then was

You may not think these circumstances suspicious, Mr. Keyes, even though the State Bar is about to try Murray, Richardson and Elconin on charges looking to their disbarment.

But the picture presented indicates that MacKay and perhaps others in your office were not only trying to shield Murray, but persuaded the grand jury to accuse Ramsey on a trumped-up charge as a warning to other possible accusers of deputy district attorneys. And now MacKay cannot find the records.

Then there is the Rudder case to

Are there other similar cases in your office, Mr. Keyes? Are there any other public records missing like the missing letters in the "Big Hutch" case or the exhibits that vanished in the grand jury exhibits that vanished in the grand jury room in the McPherson case? How about Joe Ryan's charges that Chief Dep. Dist.-Atty..Davis ordered dismissals and reduction of charges in cases in

The Stock Racket

The stock Racket

The stock racket has many angles. Some one may call you up, saying he is Mr. Blank, with the well-known bond-broking firm of So-and-So. If you are at all interested in sound investments, he would like to show you some safe ways of using your money. If you encourage him to call, he will drive up soon afterward. He may even take you down to the Stock Exchange and show you just how certain stocks are selling, and if you evince interest in one—say, Bancitaly, for example—he will say:

"By George! I know where you can pick up \$5000 worth of that at \$7 a share below today's quotations. Man out in Pasadena—sort of retired man who never goes near the

Another game is for a "bond sales-man" to call, saying he knows where he can sell stock you already have to great advantage. His knowledge of the stock you have supports his claim to be the representative of a claim to be the representative of a reliable house, and he may even urge you to telephone him in care of that house. Moneyed Men Not Wise

It seems to most of us, who haven't been able to do it, that anyone clever enough to pile up thousands of dollars would have sense enough to take reasonable care of it, but one bunko man arrested the other day is alleged to have cleaned up fully \$200,000 in recent operations. "Some men are so simple," Capt. Williams says, "that they will turn over perfectly good stocks to slickers who give them printed receipts bearing the names of good companies, and take notes or guarantees pledging them big profits one year from date' or "six months from date." These simpletons never holler till the time is up, and the crooks are far away." crooks are far away.

There are bunko men in all walks of life. The other day a negro who appeared to be a chauffeur asked a prosperous negro woman where he could find a maid for his employer, a rich man whose wife was in Europe and who wished a good maid in charge of the house before she returned. But the house was full of his wife's personal valuables, and the new employee must be bonded, till the wife returned. The negress drew \$250 from the bank to post as her

The enormous expense of our city, county and State governments, taxes, assessments, pensions, many of them seeming unnecessary to property owners, seems to be increasing daily and it seems about time, for all of us, to devise some methods by which the inclination of office holders, and others, to find new ways to spend our hard-earned "masuma," can be curbed. Please remember that this suggestion is made constructively and not otherwise. Gadd's West Adams-Smilley Drive awful claim of nearly \$300,000 for "extras" on a job contracted for about \$368,000 started a fight by our West Adams Taxpayers' Progressive League, which has seemed to arouse others to imitate our example and "have a look" at how public business is being conducted for all sections of Los Angeles and particularly their immediate localities.

One very simple, if small, measure of immediate relief I have never seen discussed, viz, the remission of all taxes on lands used for agricultural pur-poses, occupied, owned, and worked by bona fide farmers.

In all cities we discriminate in that form of taxation, called li-censing, between butchers and bakers and candlestick makers; while some occupations are to-tally exempt. If this practice be constitutional it surely must be more urgently permissible to re-mit taxes when such remission constitutional it surely must be more urgently permissible to re-mit taxes when such remission tends to make it possible for the farmer to continue his impera-tively necessary business of fur-nishing food, failing which no revarament can survive.

Marie Prevost is vigorously denying the reports that she is engaged to marry Ward Crane.

"The rumor has been printed in some eastern papers, particularly in New York," said Marie yesterday, "but it is without foundation.

"We went out together a good deal a couple months ago, and this is probably what gave rise to the reports. We were merely friends. As a matter of fact, even our friendship has cooled, and I have not seen Mr. Crane for several weeks."

Sam Hardy in Pictures

Now Sam has returned to the screen and is appearing in "Diamond Handcuffs" with Eleanor Boardman for Metro-Coldwyn Mayer. He is playing a gangster.

PLEA HEARD ON COTTO RAIL RATES

> Secretary for Growers Argues for Cut Before Interstate Examiner

Railroad freight rates on ship-ments of cotton to Los Angeles Harbor from points east of Tucson were discussed here yesterday be-fore Interstate Commerce Commis-sion Examine? Mattingly at a hear-ing on the petition of the California, Arisona and New Mexico Cotton Association.

Arisona and New Mexico Cotton
Association.

The association is seeking a reduction in these rates. J. A. Woolley, secretary and manager, told the examiner yesterday that the present rates bar shippers in New Mexico and points east of Tucson from shipping their cotton through Los Augeles Harbor.

If the rates are lowered as requested, the witness testified, the local port will become the terminal for all the Ariscona and New Mexico cotton. Such a development would be natural, he stated because of the recognaphic locations of the two districts and because the Ariscona and New Mexico cotton is the same kind as is raised in California and finds its way to the same sastern markets.
